Career Objective

Experienced Software Engineer with 3 years of expertise in developing and optimizing high-performance, scalable software solutions. Proficient in backend and frontend development, cloud infrastructure, and modern frameworks. Strong focus on clean, efficient code, system architecture, and cross-functional collaboration. Seeking to leverage technical skills and problem-solving abilities in a challenging role. Committed to continuous learning and innovation in cutting-edge technologies.

Experience

Spacepe India Services

May 2024 – Present

Software Development Engineer

New Delhi

- Developed scalable REST APIs with DRF for multi-tenant architecture, ensuring tenant-specific data segregation.
- Implemented GraphQL for efficient data retrieval and integrated Celery for asynchronous task scheduling.
- Enhanced system performance for seamless multi-tenant operations.
- Optimized the architecture for better scalability and flexibility.

Oodles technologies

Dec 2023 – Apr 2024

Software Development Engineer

Gurugram

- Developed scalable CRM for real estate applications using Django DRF.
- Automated CI/CD pipelines with Jenkins, streamlining deployments.
- Leveraged Pandas and NumPy for efficient data processing and analysis.
- Managed version control and collaborative development using GitLab.

Seo Digital India

Jan 2022 – Nov 2023

Software Development Engineer

Delhi NCR

- Developed freight forwarding software using Django DRF and frontend technologies to streamline logistics operations.
- Deployed and managed cloud infrastructure on DigitalOcean for optimal performance.
- Utilized FileZilla for secure file transfers and server management.
- Collaborated directly with clients to gather requirements and deliver tailored solutions.

Projects

DjangoAuthbridge | Django, Kerberos, LDAP, Keycloak, Docker, Nginx | GitHub

- Integrated Django, Kerberos, LDAP, and Keycloak for secure Single Sign-On (SSO) and centralized user management.
- Deployed Keycloak with Docker Compose to manage authentication flows and federate LDAP user data.
- Containerized Django, Keycloak, LDAP, Kerberos, and Nginx with Docker, optimizing deployments and traffic management via Nginx.

Hospital Management System | Django, DRF, Javascript, Bootstrap, Ajax | GitHub

October 2023

- Developed a Hospital Management System with token-based email verification, password reset using Celery, and daily email notifications via Celery beat.
- Enhanced UI with AJAX and optimized database queries using Redis for improved performance.
- Integrated Razorpay for secure and seamless third-party payment processing.

Technical Skills

Languages: Python, JavaScript

Developer Tools: VS Code, PyCharm, sublime Text, PostMan, FileZilla, Swagger, Jenkins, Gitlab, Github

Databases: MySQL, Postgres, ScaylaDB, SQLite, Redis

Frameworks/Libraries: Django, DRF, GraphQL, React, Bootstrap, Pandas, numpy, Openpyxl, ReportLab, OpenCv

Additional Skill: DSA, OOPS, DBMS, Celery, Jira, Websocket, Webhooks, JWT, OAuth2.0, jQuery, BeautifulSoup

Soft Skills: Communication, Team Work, Problem Solving.

Education

Jawaharlal Nehru Technological University Hyderabad

Aug. 2017 – Oct 2021

B.Tech in Computer Science Engineering
